

With our passion for Linux, we have been supporting exciting and innovative projects for major customers in the industrial environment on a daily basis for over 20 years. Working with us, you are always at the forefront of technology. We are involved in the Linux community and are active maintainers and contributors. Our employees are our success, so we value your personal contribution and always have an open ear for you. In our company, you have a high degree of individual freedom and the opportunity for codecision. Whether on-site or hybrid with mobile office plus frequent on-site presence, we give you the freedom you need to achieve a good work-life balance and to realize your personal life model.

Manager Sales/Marketing – Product Owner (m/w/d)

Your responsibilities:

- 📦 Analyze customer requirements, prepare proposals, and provide market and competitive analysis
- 📦 Expand distribution
- 📦 Ongoing development of the product portfolio / product strategy to ensure future viability

You fit in well with us if you can bring the following to the job:

- 📦 University degree in the field of computer science or comparable training
- 📦 At least 3 years of professional experience in product management or sales in the embedded environment
- 📦 Knowledge of embedded Linux and/or RTOS
- 📦 Profound understanding of Open Source and Linux
- 📦 Experience in project management processes
- 📦 Personal initiative and structured way of working
- 📦 Strong communication skills and confidence
- 📦 Good command of German and English

This is what we offer you:

- 📦 A respectful working atmosphere with an open corporate culture and flat hierarchies
- 📦 Exciting projects and customers
- 📦 Innovative technologies
- 📦 Large scope for creativity and personal responsibility
- 📦 Flexible working hours, mobile office and part-time options
- 📦 Company pension allowance and capital-forming benefits
- 📦 Annual training budget
- 📦 Executive Management perspective
