

With our passion for Linux, we have been supporting exciting and innovative projects for well-known customers in the industrial environment every day for over 20 years. With us, you are always at the forefront of technology.

Our employees are our success, so we value your personal contribution and always have an open ear for you. With us, you have a high degree of individual freedom and the opportunity for co-determination. Whether part-time, full-time or mobile office, we give you the freedom you need to balance your private and professional life and to realize your personal life model.

We continue to grow and are looking for you to join our team as

## Java WEB developer – Fullstack (m/f/d)

### **This is what waits for you at Linutronix:**

As Java Web developer, you report directly to the Head of R&D in all relevant aspects, from project start to project completion. You are responsible for co-development with external service provider and in-house development of SaaS applications. You are technical project leader, hands-on maintainer, and topic owner. In this function you have great creative freedom and you can implement your visions.

### **You fit in well with us if you can bring the following to the job:**

- Technical education completed
- Experience in designing and programming web applications in Java / Javascript / Angular / Spring
- Experience with Spring Boot, JPA, REST Services, Angular, HTML 5 and CSS (SCSS)
- The focus of your activities will be on analysis, design and programming of Java web applications
- Development of responsive frontends & backends for web applications
- Proficient command of German and English
- Enjoy working with open source
- Good communication skills and confidence

### **This is what we offer you:**

- A respectful working atmosphere with an open corporate culture and flat hierarchies
- Exciting projects and customers
- Innovative technologies
- Large scope for creativity and personal responsibility
- Flexible working hours, mobile or hybrid office and part-time options
- Company pension allowance and capital-forming benefits
- Annual training budget
