

With our passion for Linux, we have been supporting exciting and innovative projects for well-known customers in the industrial environment every day for over 20 years. With us, you are always at the forefront of technology. Our employees are our success, so we value your personal contribution and always have an open ear for you. With us, you have a high degree of individual freedom and the opportunity for co-determination. Whether part-time, full-time or mobile office, we give you the freedom you need to balance your private and professional life and to realize your personal life model.

We continue to grow and are looking for you to join our team as

Linux System Administrator / Engineer (m/f/d)

This is what waits for you at Linutronix:

As the leader of a small team, you are responsible for the areas of servers, storage, network and IT security, as well as projects in the IT administration environment. You install and administrate Linux servers and client systems (physical and virtual), as well as analysis and troubleshooting. The design and maintenance of all network services will be part of your daily work, as well as the selection, procurement, installation and documentation of IT systems. You will be responsible for creating IT requirement definitions, IT concepts and IT security policies, presenting the results to management and implementing them independently.

You fit in well with us if you can bring the following to the job:

- ☑ At least 3 years of professional experience as a system administrator (ideally in an IT system house)
- ☑ Extensive experience in larger IT environments with common Linux systems
- ☑ Good knowledge of ISO/IEC 27001, BSI Standards 200-x and virtualization technologies
- ☑ High motivation, communication skills, ability to work under pressure, confident demeanor and ability to work in a team
- ☑ Good command of written and spoken English and German

This is what we offer you:

- ☑ A respectful working atmosphere with an open corporate culture and flat hierarchies
- ☑ Exciting projects and customers
- ☑ Innovative technologies
- ☑ Large scope for creativity and personal responsibility
- ☑ Flexible working hours, mobile or hybrid office and part-time options
- ☑ Company pension allowance and capital-forming benefits
- ☑ Annual training budget

Interested?
